October 10, 2014

To Whom It May Concern:

I am pleased to submit this Letter of Recommendation for DES-DC. I had the opportunity to work with this team on a very challenging and fast-track project, the Stanton Elementary School Modernization Phase 1. This \$17 million project was renovated and furnished in less than two months.

I would like to take this opportunity to express my appreciation for the exemplary manner in which DES-DC has performed for the install and design for the FF&E package on this project, particularly Emily Thornton who I worked closely with to meet the condensed schedule. The quality of the work has been excellent and was delivered in a timely manner. The project deliverables typically exceeded our expectation and the DES-DC team was professional and actively engaged in fulfilling the needs and requirements of the project and the client.

I would not hesitate to recommend DES-DC to others and I look forward to associating with them again on future projects.

Sincerely,

Jasmine Brooks
